Product of the month – MEYLE-ORIGINAL glow plugs

As DRIVER'S BEST FRIEND we offer 23,000 solutions to make vehicles around the globe perform longer and more reliably so that motorists all over the world can safely rely on MEYLE quality.

The product of the month at a glance:

- **Without glow plugs, your engine won't start:** Glow plugs ensure your diesel engine starts even in icy temperatures and runs with low-noise and low-emission.
- **Extremely high quality and reliability according to OE specifications** ensure perfect functioning at temperatures as low as -40°C .
- **Broad coverage:** MEYLE has a total of 129 references of MEYLE-ORIGINAL glow plugs for standard applications in its portfolio, covering more than 87 per cent of all diesel vehicles throughout Europe.
- **Complete package:** In addition to the glow plug, MEYLE also provides the appropriate control unit.

MEYLE's advice:

Glow plugs should be replaced every 80,000 to 100,000 kilometres. We recommend that all glow plugs be replaced at the same time to avoid subsequent repair work. When replacing the glow plugs, the control unit should also be checked.
