Put an end to leaks: with MEYLE-HD water pumps to beat frustration in the workshop!

6 new MEYLE water pumps in HD quality for numerous VW vehicle applications.

Problems with leaky water pumps and the resulting engine damage are a source of great annoyance in the everyday life of a garage. After feedback from the market and at the request of garages, we have therefore dedicated ourselves to the subject of water pumps – with the aim of improving the quality and specifically preventing leaks.

After a thorough development phase and successful tests, there are now 6 new water pumps in HD quality available from MEYLE. By combining uniquely tough components,

MEYLE HD water pumps offer quality standards far higher than what can normally be found on the free market for components:

- > made in Germany
- > extremely hard-wearing AXIA® mechanical seal from KACO in OE quality with SiC/SiC seal faces (silicon carbide) and high resistance to abrasive materials
- > housing seal resistant to high temperatures
- > water pump bearings in OEM quality
- > 4 year warranty on all MEYLE- HD parts

The new MEYLE HD water pumps are available for the following vehicle applications in the Volkswagen range:

113 220 0018/HD

suitable for VW diesel engines 1.9–2.0 TDI

113 012 0042/HD

suitable for VW diesel engines 2.5 TDI

113 220 0005/HD

suitable for VW diesel engines 2.5 TDI

113 012 0033/HD

suitable for VW petrol engines 1.6i | 1.8i | 2.0i

113 220 0023/HD

suitable for VW petrol engines 1.8 TSI | 2.0 TSI

113 220 0011/HD

suitable for VW petrol engines 2.0 TFSI

When replacing the water pump, the complete cooling system must always be thoroughly flushed and then refilled with new, specified coolant. Pay attention to the manufacturer's instructions.
